Nearly all restaurant kids’ menus lack one important quality: healthfulness. Most kids’ meals are a litany of burgers, pizza, and deep-fried chicken nuggets, along with fries and soda. Our kids deserve better.

It’s time for restaurants to serve kids better by providing healthy food options like fruits and vegetables in place of options loaded with calories, salt, and fat.

You can help make that happen. Get involved at VoicesforHealthyKids.org/Kids-Meals today.
